

**LE LINEAR** *ELITE*  
LUXURY OUTDOOR FURNITURE & FIREPITS

2026  
CONTRACT  
CATALOG

At Linear we select professional commercial dealers around the USA who can represent our complete product line in a high quality showroom. These exclusive partners have our best selling products on display and they are well equipped with fabric, finish and material samples to serve the needs of commercial accounts. They are outdoor furniture experts and they must have many years of experience in the industry to become Linear Commercial Dealers. They offer White Glove delivery and installation and they handle all warranty services for our factory.

**American Made.** By opting for our American-made product, you're supporting the domestic economy and reducing carbon footprints associated with long-distance shipping.

**No Minimums.** Our no minimum order requirements allows you to order exactly what you need, whether it's a single or a small quantity for any size client.

**Flexible Customization.** We are able to offer custom capabilities for your larger projects. From modified table heights to fully custom-designed chairs and every point in between.

**Extensive Optionality.** We have over 100 stock fabrics, cut yardage programs available, and accept COM fabrics. Choose from 10 frame finishes and 18 tile or Dekton options to fit your clients needs.

**Effortless Installation.** Most product comes fully assembled with the best protective packaging in the industry.

**Winning Warranty.** We have one of the longest commercial warranties of any outdoor furniture company.

# MADE IN AMERICA

Proudly made in America, producing outdoor furniture & fire pits at a state-of-the-art facility in Austin, Texas. By keeping production in-house--from metal forming to final assembly--We maintain strict quality control while supporting local jobs and preserving the tradition of American craftsmanship.

At the heart of our reputation is a dedication to high-quality craftsmanship. The manufacturing process blends advanced machinery with hands-on expertise. Skilled artisans work alongside cutting-edge technology to create furniture that is both durable and refined. Precision welding, automated cutting, and CNC bending equipment ensure structural integrity, while hand-finishing, assembly, and attention to detail give each piece its signature character.

This seamless integration of machine accuracy and human touch allow for precision, consistency, and efficiency without sacrificing quality and results in outdoor furniture that is built to last and designed to impress.

- Knotts Berry Farm, Buena Park, CA
- Universal Studios, Universal City, CA
- Sea World, Orlando, FL
- Launche Pointe, Lake Elsinore, CA
- Soboba Casino Resort & Hotel, San Jacinto, CA

## HOTELS

- Disney's Grand Calif. Hotel, Anaheim, CA
- Coronado Bay Hotel, Coronado, CA
- Surf & Sand Resort, Huntington Beach, CA
- Furnace Creek Resort, Death Valley, CA
- Hilton Daytona Beach, Daytona Beach, FL
- Casa Sedona Inn, Sedona, AZ
- Welk Resort, Truckee, CA
- Courtyard by Marriott, Nationwide
- Intercontinental Hotels, including Candlewood Suites, Residence Inn, Staybridge Suites and more, Nation Wide

## COUNTRY CLUBS

- Sea Cliff Country Club, Huntington Beach, CA
- Corral de Tierra Country Club, Corral de Tierra, CA
- Mira Vista Country Club, Fort Worth, TX
- Boca West Country Club, Boca Raton, FL
- Gettysvue Polo, Golf & Country Club, Knoxville, TN
- The Lakes Country Club, Palm Desert, CA

## RESTAURANTS

- PF Changs China Bistro, Nation Wide
- Urth Caffé, Throughout CA and Japan
- Arooga's Grille House, Throughout PA
- Perch Rooftop Restaurant, Los Angeles, CA
- Sandy's Beach Grill, Huntington Beach, CA
- Vino Bello Resort, Napa Valley CA
- Nora's Cuisine Las Vegas, NV

## WINERIES

- Rombauer Vineyards, St. Helena, CA
- Grgich Hills Estate, Rutherford, CA

# CONSTRUCTION & MATERIALS

## RAW MATERIALS

Starting with raw materials, we adhere to the highest quality standards. Our raw aluminum, iron tubing and sheets used to make chair, table, and fire pit frames are often the most durable available on the market.

## CONSTRUCTION

Steel and aluminum pieces are bent into exact shapes and then hand forged with a hammer and anvil, a process unchanged since blacksmiths in the middle ages. Wherever there is an intersection of metal, we use a full-circumference weld to join the metal together. We use a high amount of argon gas in our welds, which ensures a clean weld, free of bubble forming in the interior of the weld, which greatly contributes to weld breakage. Welds are ground and then polished first using a harder diamond disk to take the majority of the excess weld away, then a smoother sander disk is used to polish the welds. The goal is to create a consistent piece of metal from one furniture part to another.

## FINISH & PROCESS

We employ an extensive process to apply a long-lasting powder coating finish to our frames.

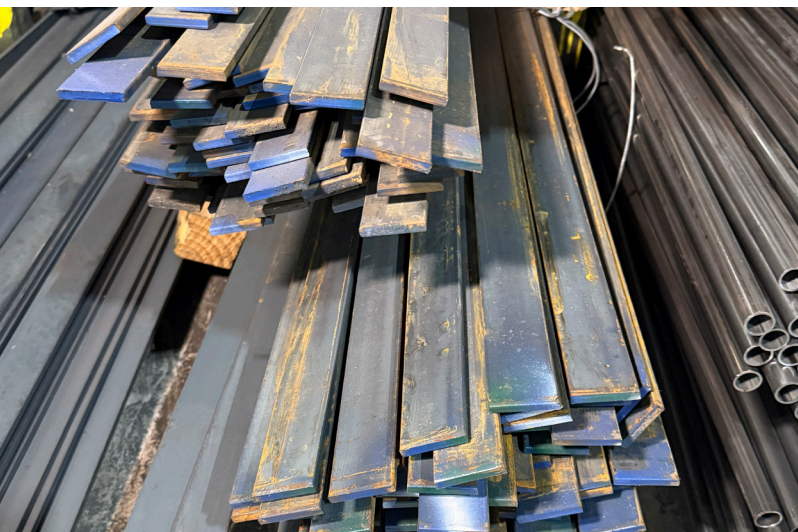

Using a chemical reaction, tiny paint-like particles known as “powder” adhere to the frame. The chemical reaction in powder coating causes the particles to spread evenly into every corner and crevasse of the frame, preventing exposed metal which can cause corrosion. Our 6-step powder coating process includes a 7-stage washer and drying oven, a zinc-rich primer coat, a baking process and then the final finish color is applied and cured. This puts a 4-6 mil. thick finish on the metal, providing excellent protection against the outdoor elements.

## THREAD & VELCRO

PTFE thread is made from specially engineered fluoropolymer, not polyester like typical thread. This thread is UV and water resistant, and will not break down from harsh chemicals such as bleach or chlorine. We also use polyester Velcro to attach the cushion to the metal frame which has better UV resistance than traditional Velcro.

## FABRIC

All Stock fabrics are solution dyed acrylic or 100% polypropylene. In “solution dyed” fabric every fiber in the yarn receives dye. Solution dyed fabric is more fade resistant than traditionally dyed fabric.

# CONSTRUCTION & MATERIALS

The fabric is mold and mildew resistant and holds up to chemicals well (think about pool chlorine and bleach cleaning). It also has water wicking and quick drying properties.

## CUSHIONS

Spun water resistant liner repels moisture and has a high breathability factor that allows for longer lasting comfort and immediate recovery. The polyester fiber dacron wrap provides soft yet durable comfort. The high-density foam core provides the same type of comfort as fine indoor upholstered furniture and maintains its original shape.

## SLING

Sling is a popular choice for outdoor spaces due to its comfort, water resistance, durability, and ease of maintenance. It resists tearing and cracking, and dries quickly, making it ideal for various outdoor furniture applications. Sunbrella Sling—a proprietary technology—combines the strength of PVC with the softness of Sunbrella acrylic yarn for enhanced comfort. Sling is available on select collections for dining, bar stools, counter stools and chaise lounges. Padded sling option available in dining, bar stools and counter stools.

## PORCELAIN

Our porcelain table tops are built in three layers: the substrate, adhesive, and porcelain tile with grout, all enclosed by a protective metal rim. The substrate is made of two thin aluminum sheets with a honeycomb core—lightweight yet extremely strong. An epoxy adhesive bonds the tile to the substrate. Unlike standard adhesives, it forms a chemical bond as it cures, making it waterproof and durable. Porcelain tiles are denser and less porous than ceramic or stone, so they resist water and staining. They're also less likely to crack in freezing temperatures. The kiln-fired surface and metal rim ensure durability.

## DEKTON

Dekton is an advanced material ideal for outdoor use due to its exceptional durability and resistance to the elements. It's highly stain-resistant—even against coffee and wine—and its non-porous surface requires no sealing. Fireproof and able to withstand temperatures over 500°F, it also resists thermal shock. Dekton won't fade from UV exposure, is unaffected by water, and resists abrasion and bending. Its strength and low-maintenance surface make it perfect for outdoor environments.

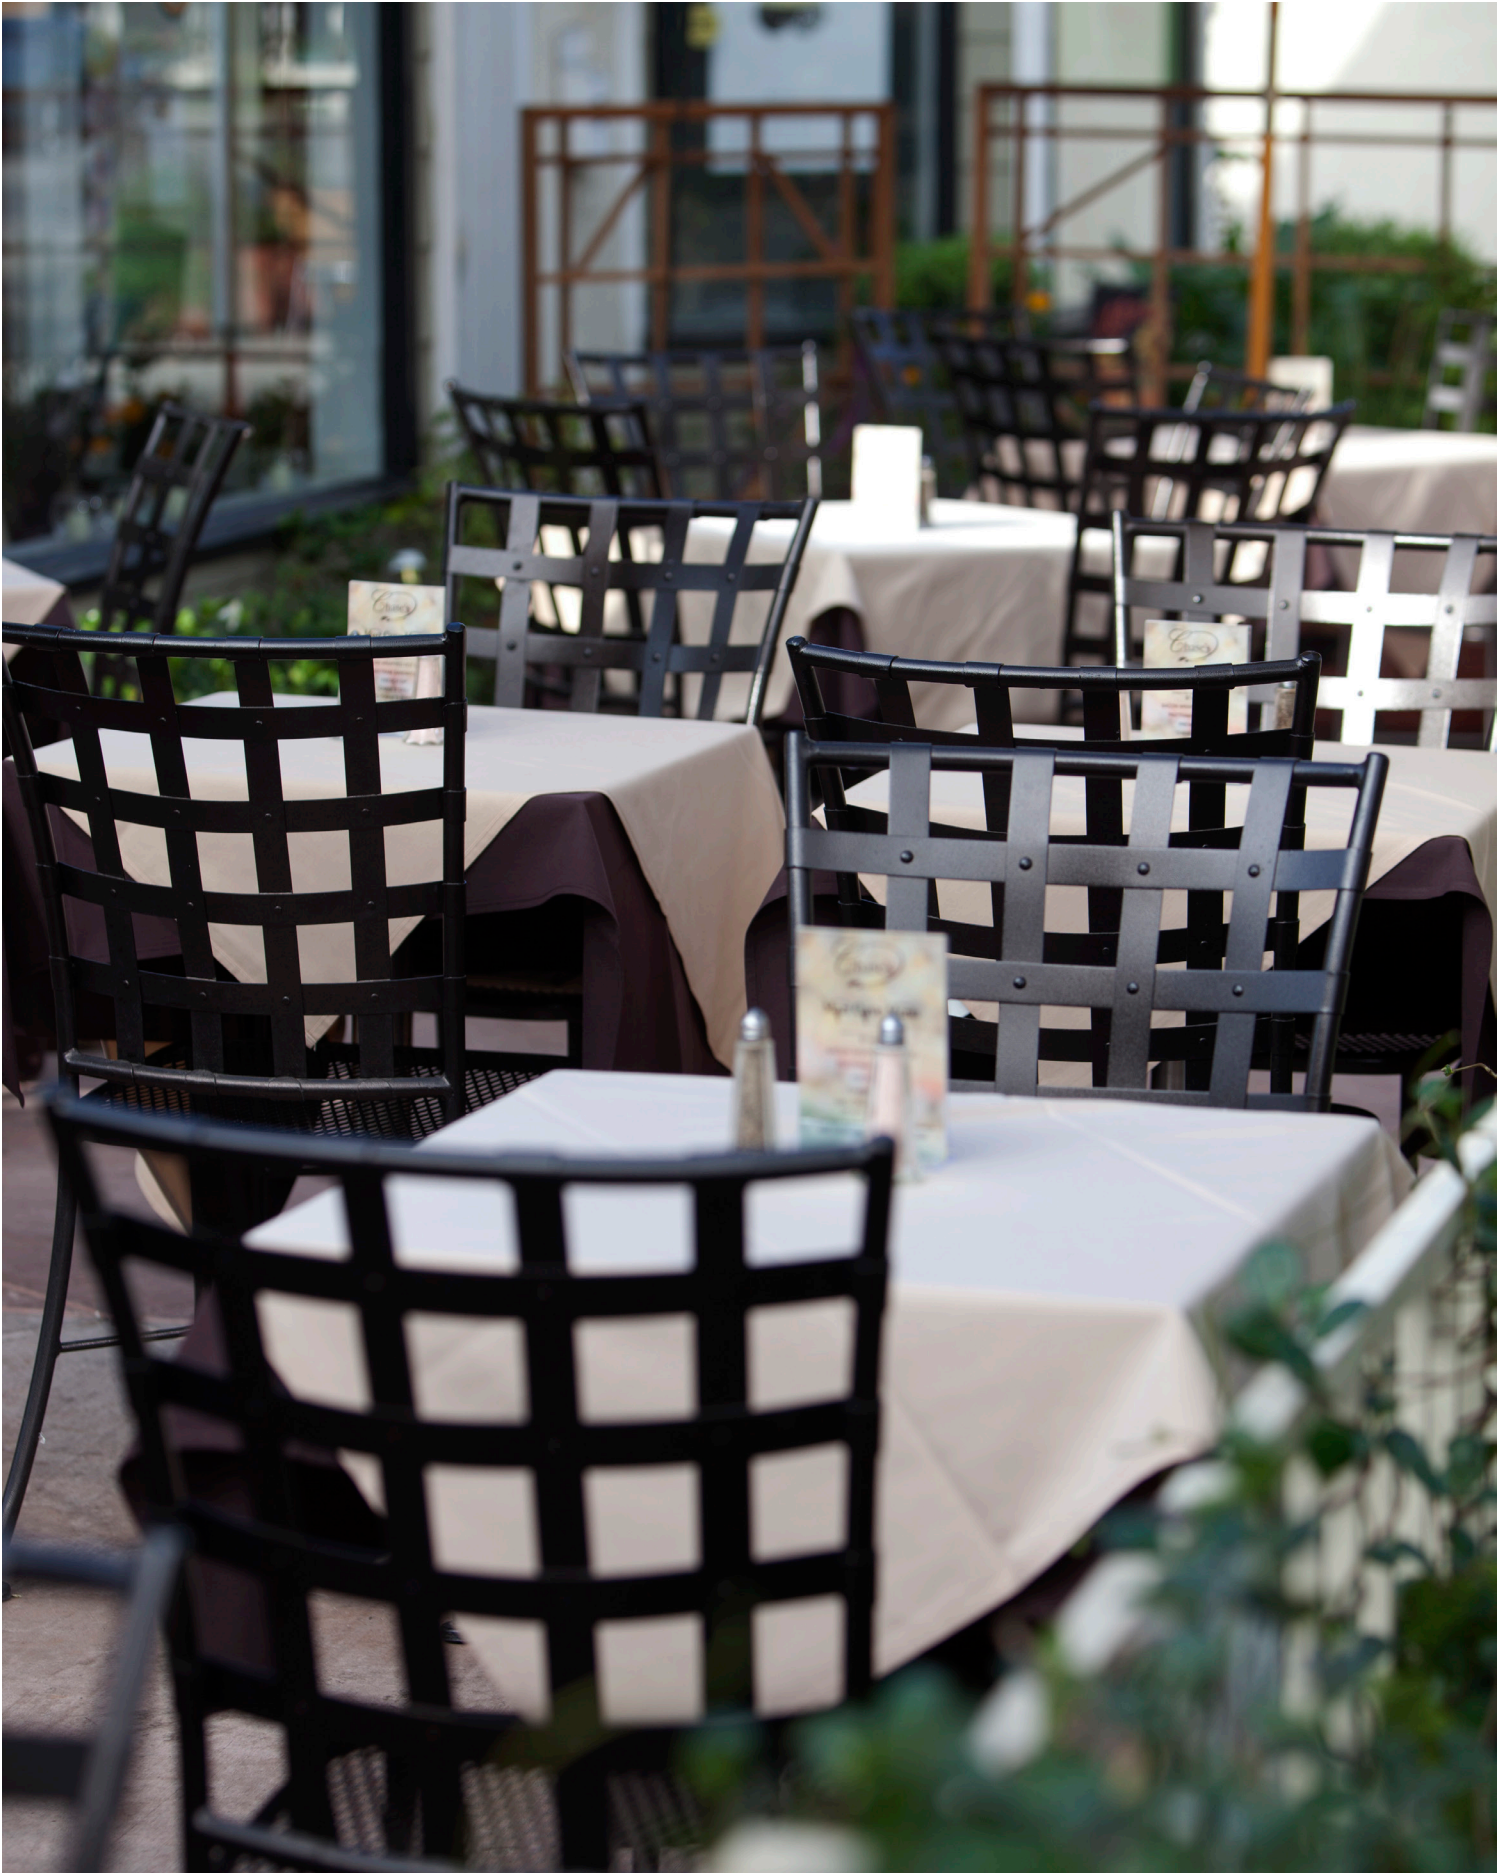

CRAFTED FOR THE CONTRACT AND HOSPITALITY MARKET, THE BISTRO COLLECTION COMBINES CLASSIC WROUGHT IRON DESIGN WITH EXCEPTIONAL DURABILITY. IDEAL FOR RESTAURANTS AND CAFÉS, IT FEATURES CHAIRS, BAR STOOLS, AND COUNTER STOOLS -- BUILT TO PERFORM BEAUTIFULLY IN HIGH-USE SETTINGS.

THE MONTERRA COLLECTION IS INSPIRED BY SOUTHWESTERN AND MEDITERRANEAN INFLUENCES, COMBINING RUSTIC CHARM WITH A TOUCH OF ELEGANT WARMTH AND TIMELESS APPEAL. THE STYLE REFLECTS A BLEND OF OLD WORLD CRAFTSMANSHIP, EARTHY TONES, AND TEXTURAL RICHNESS, EVOKING THE SPIRIT OF BOTH DESERT LANDSCAPES AND MEDITERRANEAN VILLAS.

## FOR THE PERFECT FIT

### 1 IN STOCK OPTIONS

Over 100 fabric options are readily available, enabling faster project timelines without compromising style.

### 2 SPECIALITY & SPECIFIED FABRICS

We partner with reputable outdoor fabric manufacturers to source specified fabrics for your project, ensuring performance and design integrity.

### 3 CUSTOMER-OWNED MATERIALS (COM)

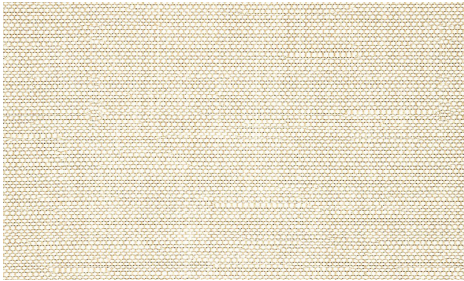

We gladly accept COM fabrics, providing flexibility for your unique project requirements

Our comprehensive fabric program offers the flexibility you need for any hospitality or commercial project. Choose from over 100 in-stock options for quick delivery, or specify custom fabrics through our trusted partnerships with leading outdoor textile manufacturers. We also accept Customer-Owned Materials (COM), giving you complete control over the look and feel of your space. Every option is selected with durability, performance, and style in mind—designed to perform in high-traffic environments while keeping your project beautiful.

## OUR FINISHING PROCESS

We employ an extensive process to apply a long-lasting powder coating finish to our frames. Using a chemical reaction, tiny paint-like particles known as "powder" adhere to the frame. The chemical reaction in powder coating causes the particles to spread evenly into every corner and crevasse of the frame, preventing exposed metal which can cause

corrosion. Our 6-step powder coating process includes a 7 stage washer and drying oven, a zinc-rich primer coat, a baking process and then the final finish color is applied and cured. This process puts a 4-6 mil. thick finish on the metal, providing excellent protection against the outdoor elements.

# CARE + MAINTENANCE

## **Metal Frame Maintenance**

Our metal furniture and fire pits are designed to require minimum maintenance. Metal frames/bases should be kept clean. Do not let dirt build up. Cleaning with mild soap and water, and seasonal touch-up of any scratches, chips or occasional rust seepage from crevices or hidden, unfinishable surfaces inherent in some ornate designs is required. Touch-up pens in matching frame colors are available through your retail dealer or our factory website. Never leave furniture or fire pit standing in water. To keep your furniture or fire pit looking its best, you may wish to store or cover it when not in use for an extended period of time. More frequent care & maintenance may be required in coastal areas.

## **Cushion, Sling, and Padded Sling Care**

We use quality solution dyed acrylic or 100% polypropylene fabrics, and only the finest outdoor foam and fiber fillings. Fabrics have been treated to resist stains and water before leaving the factory. Never remove fabric from cushion, use a power washer, or submerge in water to clean. Regular cleaning with mild soap and water using a sponge or soft scrub brush is all that is required.

## **Porcelain/Dekton Table Tops & Hearth Tops**

Regular cleaning, using a damp rag with plain water to remove minor dirt and dust is all that is required. All-purpose household cleaners can be used on both porcelain and Dekton tile. Soapless detergents such as Spic and Span® or 409® can also be used. Rinse with clean water and wipe dry to prevent water spots. Cleaning products available from your local grocery or hardware store can be used to remove soap scum, hard water deposits, and mildew stains from the tile. Be sure to consult the cleaning product's instructions to ensure the product is recommended for your type of tile. After cleaning, rinse well and wipe dry.

# SUSTAINABILITY AT A GLANCE

## Made to Last

- Long-lasting construction reduces landfill waste
- Timeless design minimizes the need for replacement

## Responsible Materials

- North American steel & aluminum
- Recycled aluminum and steel drops
- Eco-conscious cushion foam & water-based adhesives

## Low-Impact Manufacturing

- Powder-coat overspray captured and reused
- Primer reclaimed for near-zero waste
- High-efficiency GEMA top coat
- Energy-saving IR ovens
- Recycled cardboard packaging

## Ethical Craftsmanship

- Handcrafted in the U.S.
- Fair labor practices
- Skilled jobs that support local communities

## Continuous Improvement

- Facility upgrades for reduced energy and water use
- Ongoing waste-reduction initiatives
- Partnerships with environmentally responsible suppliers
